WHAT YOU RECEIVE

SAMPLE STRUCTURE

AI Workflow Audit · your workflow here

01

Practical opportunities

Candidate AI use cases drawn from the workflow itself, not a generic list.

02

Likely business value

Where the effort sits today, and which opportunities are worth taking seriously first.

03

Risks and constraints

Data quality, governance, explainability and the practical system boundaries.

04

Recommended next steps

A short, ordered list – including "not yet", where that is the honest answer.
